## The Galloping Goose Trail

This picturesque multi-use trail, formerly a railway line, moves through urban, rural, and wilderness scenery on its 55-kilometre journey from Victoria to Sooke. You can cycle, stroll, run, or even ride a horse through the rural sections.

## Mount Wells

Mount Wells is a 123-hectare wilderness park of second-growth forest and fragile mossy rock outcrops with spectacular views of the region and stunning spring wildflowers. It is located on the edge of an immense protected area of green space near the Sooke Hills. The hike to the summit (352m) of Mount Wells is steep and challenging, suitable for fit hikers.

Spanning more than 130 acres of forestland, the park boasts winding trails under massive tree canopies and epic viewpoint lookouts. With a variety of trails, including downhill flow trails and technical trails, with difficulties ranging from blue (easiest) to double black (most difficult), there is something for hikers and cyclists of all ages and abilities. Note that certain trails are exclusively for biking or hiking. Parking is available at 4100 West Shore Parkway. Leashed dogs are permitted in the park.

Please visit [Langford.ca/GravityZone](https://Langford.ca/GravityZone) for more information and to view the park map.

## Langford Lake

Langford Lake is a popular swimming, boating, and fishing destination for residents and visitors alike. There are numerous boardwalks and shore access points as well as a boat launch on the western shore.

## Trans Canada Trail/Sooke Hills Wilderness Regional Trail

This 13km unpaved trail offers a unique wilderness experience as it travels through remote areas and wildlife habitat. The trail lies between the Humpback Reservoir in Sooke Hills Wilderness Regional Park and the Capital Regional District-Cowichan Valley Regional District boundary. The Sooke Hills Wilderness Trail provides part of both The Trans Canada Trail and the Vancouver Island Trail routes. Rest at the viewing platform, 2.5km from the Humpback trailhead, to take in the sights and sounds of Waugh Creek Falls, which flows forcefully in the winter and spring. From there, it is 0.5km to the suspension bridge across the Goldstream River.

## Goldstream Provincial Park

The trails through Goldstream range from easy, wheelchair-accessible walks to strenuous hikes and track along creeks, through forested uplands and past abandoned gold diggings from the days of the Gold Rush. The park is home to 600-year-old Douglas fir trees and western red cedar, along with western yew and hemlock, red alder, big leaf maple and black cottonwood. Whether you're out in the rain during the salmon run to view the salmon, or you're hiking up Mt. Finlayson on a hot summer day, the Goldstream Nature House is your home base. Head inside to cool down with a refreshing drink and some ice cream in the summer, or warm up in the winter with hot, fresh coffee and a cozy seat by the fireplace.

## Mount Finlayson

Located in Goldstream Provincial Park, the Mount Finlayson hike is one of the steepest and most challenging hikes in the region. It offers scenic views looking south towards Langford. The route is a popular exercise trail and can be busy on weekends, however the views from the top on a clear day are spectacular and worth the effort to get there. This trail is steep and rugged; dress for the terrain and weather, stay on the marked trail and allow adequate time for return in daylight. The summit can be accessed from Finlayson Arm Road or the day-use area. Use caution when walking on Finlayson Arm Road.
